

# Demand Donaldson for Reliable Air Filtration

Donaldson P182038 (or EAF5038 not shown) air filter provides reliable filtration for a wide range of mining and off-road applications.

## Features:

- Meets or exceeds OEM efficiency requirements
- High efficiency filter upgrade option available
- Designed for use in SRG Donaclone™ air cleaners

## Benefits:

- Less engine wear due to optimal filtration performance
- Improves your engine performance through less engine wear
- Replacement filters designed by Donaldson to work in the original Donaldson air cleaner housing

## Shoptalk

This SRG20 (single outlet style air cleaner) with rain shroud is easy to service using either a P182038 or EAF5038 because the access cover, which is out front, is attached to the filter. Simply unscrew the wing nut and pull the filter out horizontally. Inside, a safety filter protects the air intake during filter change out.
