

Shoptalk *in motion*

Two 35-foot, customized, state-of-the-art training vehicles are making their way across North America, delivering practical and useful knowledge about filtration – we call it Shoptalk in motion.

Features and Benefits:

- Donaldson product training – brought to you!
- No training fee
- Up close and personal – class size is limited to 10 attendees
- Hands-on training and demonstrations gives you an opportunity to touch and experience Donaldson products in operation
- Meet Donaldson representatives

Call your Donaldson representative for more information.

Shoptalk

INNOVATION

The hands-on training and demonstrations give you an opportunity to touch and experience Donaldson products in operation.

“The new mobile training units will give customers easier access to specialized product training sessions when and where they need it,” said Peggy Herrmann, general manager, engine aftermarket, Donaldson Company.

Training sessions include:

- Air filtration
- Lube, fuel and coolant filtration
- Exhaust and emissions
- Technical tips
- Extended service practices

More information on our Mobile Training Centers can be found at www.donaldson.com/en/engine/news/wdus/library/005449.pdf
