Filtration and Exhaust Products For the Oil and Gas Industry

Exploration

Hydraulic Fracturing

Extraction

Filtration and Exhaust Products for Maximum Productivity and Protection

Donaldson offers a full range of filtration and exhaust system products for oil and gas related equipment used in exploration, extraction and transportation. These products enhance engine and equipment performance while protecting the environment in which they operate.

Original Equipment Manufacturers around the world choose Donaldson for first fit application. When it's time for replacement, Donaldson provides the quality and value needed for your operation.

Products for Superior Performance And Longer Service Intervals

Air Filtration

- Donaldson air filters contain filter media specially formulated to trap contaminants such as dirt, dust and soot before they reach your engine.
- PowerCore® air filters are designed to allow high airflow in minimal space.
- RadialSeal™ design provides the most consistent and reliable seal and the best protection for your engine.

DURAMAX®

Hydraulic Filtration

- A full line of hydraulic and transmission filters protect expensive hydraulic components.
- Duramax® filters have become the industry standard for operating pressures up to 350 psi.

Lube Filtration

- Donaldson lube filters protect your engine by capturing wear metals, soot and other contaminants in your engine oil.
- Donaldson Endurance™ lube filters with Synteq™ filter media help extend your service intervals.

Fuel Filtration

- Donaldson fuel filters help prevent premature injector and pump wear by delivering clean fuel to your engine.
- The Twist&Drain™ fuel filter water separator makes takes the mess out of draining water from your filter.

Mufflers & Exhaust Accessories

- Donaldson offers replacement mufflers, clamps and accessories for complete exhaust system maintenance.
- Donaldson exhaust ejectors are available in three styles for systems that require an ejector.

Filtration Accessories

- Filter service indicators reduce air filter maintenance costs and eliminate over-servicing.
- Vacuator™ valves, standard on many air cleaners, are vital to the functionality of the air cleaner during pre-cleaning.
- Complete line of intake accessories including rubber products, rain caps and mounting bands.

Popular Filters for Oil and Gas Equipment

Product Description	Donaldson	Baldwin	Fleetguard	Luber-finer	Wix	NAPA
