

Donaldson[®] Torit[®] Replacement Filters for Farr Gold Series[®] Collectors

Now our high efficiency patented Ultra-Web[®] media is available for Farr Gold Series[®] and Farr Tenkay[®] dust collectors—same form, exact fit, higher function. Get direct replacement filters for your Farr dust collectors from a filter specialty company that designs its own filter media and manufactures filters to tight specifications—Donaldson[®] Torit[®]!

25 Years Proven & Patented Ultra-Web[®]

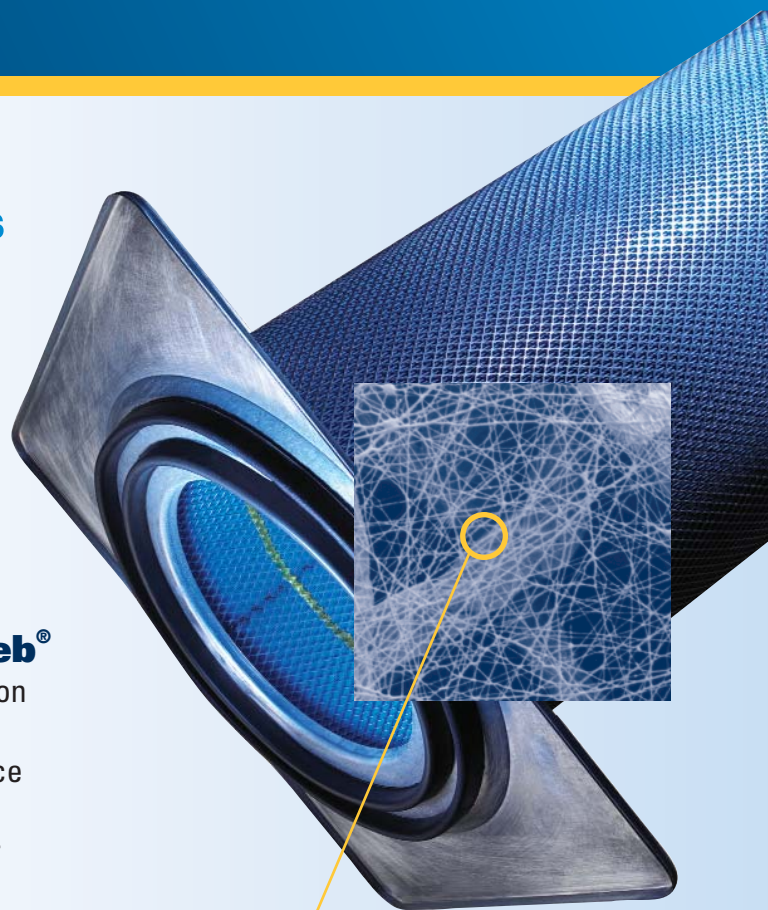

- Advanced media is more efficient in capturing submicron dust particles (0.3 micron and larger)
- Longer filter life and better pulse cleaning due to surface loading technology
- Lower energy use with better pulse cleaning and lower operating pressure drop
- MERV 15, 14, and 13 filtration efficiencies to meet specific application needs

Ultra-Web Applications

- Ultra-Web is designed for applications where very fine and non-fibrous dust occurs—thermal spray, pharmaceutical, fumed silica, metallic fume, metallurgical powders and oily weld fume
- Ultra-Web nanofiber technology is available with these substrate choices:
 - Spunbond polyester media
 - 80/20 blend of polyester and natural fibers
 - Synthetic media
 - Enhanced cellulose media

CLEANER Air
LONGER Filter Life
GREATER Energy Savings

Ultra-Web Nanofiber Technology

10 Micron Particulate at 600%

1 micron = 1/25,400 of an inch

Ultra-Web cartridge filters are in stock and ready to ship; available for all major brands of cartridge collectors.
