

Donaldson® Torit® Replacement Filters for AAF® Optiflo Dust Collectors

Now our high efficiency patented Ultra-Web® media is available for American Air Filter dust collectors—same form, exact fit, higher function. Get direct replacement filters for DuraShield meltblown media, DuraKlean, and MagnaKlean in your AAF Optiflo collector from a filter specialty company that designs its own filter media and manufactures filters to tight specifications—Donaldson® Torit®!

25 Years Proven & Patented Ultra-Web®

- Advanced media is more efficient in capturing submicron dust particles (0.3 micron and larger)
- Longer filter life and better pulse cleaning due to surface loading technology
- Lower energy use with better pulse cleaning and lower operating pressure drop
- MERV 15, 14, and 13 filtration efficiencies to meet specific application needs
- Ultra-Web filters reduce filter plugging with meltblown media

Ultra-Web Applications

- Ultra-Web is designed for applications where very fine and non-fibrous dust occurs—thermal spray, pharmaceutical, fumed silica, metallic fume, metallurgical powders and oily weld fume
- Ultra-Web nanofiber technology is available with these substrate choices:
 - Spunbond polyester media
 - 80/20 blend of polyester and natural fibers
 - Synthetic media
 - Enhanced cellulose media

CLEANER Air
LONGER Filter Life
GREATER Energy Savings
