

Donaldson Semiconductor Filter Refill Program

The Donaldson Filter Refill Program is the only one of its kind in the Semiconductor industry. This environmentally-friendly initiative significantly reduces the cost-of-ownership for our customers who opt to refill specific Donaldson filters, rather than purchase new ones. Best of all, refilled filters are guaranteed to perform like new!

Program Features and Benefits

- OEM approved
- Filters are emptied of used media and filled with fresh, new carbon media.
- Guaranteed. Refilled filters perform like new.
- Reduced cost-of-ownership. Refilled filters cost 30 - 50% less than new ones.
- Environmentally-friendly
- Brief lead time. Refilled filters are typically delivered in just 3 - 4 weeks.

Filters Eligible for Refill

- Most Donaldson packed-bed carbon filters
- Donaldson Point-of-Use filter P510172

Incoming Filter Inspection

Upon arrival, every filter is inspected, with their results recorded and stored in a permanent record by filter serial number. The following is inspected:

- Filter length, width, depth, squareness
- No carbon particles are visible
- No cracks, tears, or dents are present on the filter face or sides
- All screws and rivets are present and undamaged
- No cracks, tears, or punctures are present on the filter screen
- No dirt, tears, or holes are present in the pre- or post-filter media

If filters do not meet requirements, we will inform our customer.

Donaldson®

Donaldson Semiconductor Filter Refill Program

Outgoing Filter Inspection

Once the filter has been refilled, a thorough inspection ensures that:

- Access cover and straps are securely fastened
- No carbon particles are visible
- Pre- and post-filter media is clean
- New gaskets are applied
- Filter is at appropriate full weight
- Filter is wiped of finger prints to ensure clean appearance
- An updated refill label is affixed
- Filter pressure drop is at rated flow rate

Filters are now ready to be shipped back to our customer.

Start Saving Today!

To get your eligible Donaldson filters refilled:

1. Contact the Donaldson Semiconductor customer service nearest you for a Return Materials Authorization (RMA) number. Know your PO number, the Donaldson part number, and quantity of filters to be refilled.
2. Donaldson customer service will enter your order and provide you with an RMA number and a shipping document to enclose with your filters.
3. You will ship the filters to the address listed on the shipping document. Allow 1 week for shipping.
4. Allow ~2 weeks for your filters to be processed.
5. Processed filters will be shipped back to the address you provided on the PO. Allow 1 week for shipping.
