Chesterfield, Missouri 63005

(Kind Attention: Mr. Jeff Riley, Project Engineering Manager)

Sub: Type Acceptance of FAA, Supplemental Type Certificate (STC) SR09368RC with amendment dated 17/10/2012 for installation of Inlet Barrier Filter System on Bell Helicopter Model 407.

Sir,

Reference may please be made to your request dated 24/05/2016 forwarded to this office by FAA vide their letter dated 02/06/2016 on the above mentioned subject.

The request for acceptance of the subject mentioned STC has been examined along with the information and clarification provided to this office. This is to inform you that change in type design for installation of Inlet Barrier Filter System on Bell Helicopter Model 407, which meets the airworthiness requirements of Part 27 of FAA Regulation and certified vide FAA, Supplemental Type Certificate SR09368RC with amendment dated 17/10/2012 is considered acceptable from design view point subject to the following conditions:-

1. The installation must conform to the type design data as described in the STC.
2. Limitation and Conditions as specified in the STC shall be strictly adhered to.
3. The helicopter shall be fitted with mandatory instrument and equipments as per applicable Civil Aviation Requirements (CARs) of DGCA, India available on DGCA website www.dgca.nic.in.

The letter of STC acceptance is issued under the provisions of Rule 49G, the Aircraft Rules 1937 with the approval of the competent authority.

Yours faithfully

(S.K. Singh)
Director (AE)

for Director General of Civil Aviation
