AEROSPACE & DEFENSE

Boeing 787 Electronics Equipment Cooling Filters

DONALDSON AVIONICS FILTRATION SOLUTIONS.

Donaldson now provides a complete family of air filtration products for the Boeing 787 platform.

Improving air quality by removing particulates and contaminants from aircraft equipment is important in providing confidence in system reliability.

Donaldson Electronics Equipment Cooling filters provide the clean environment critical to efficient operation in avionics systems.

Donaldson Avionics solutions inspire confidence by:

- Reducing operational costs
- Being the OEM EE filter supplier on B737, B777, B777x, B757, A320, A330, A340 with exclusivity on B737, B777, B777x, and B757
- Providing equivalent form, fit and function to OEM product design
