- Automated data recording, notifications, and reports.

Monitoring and Insights

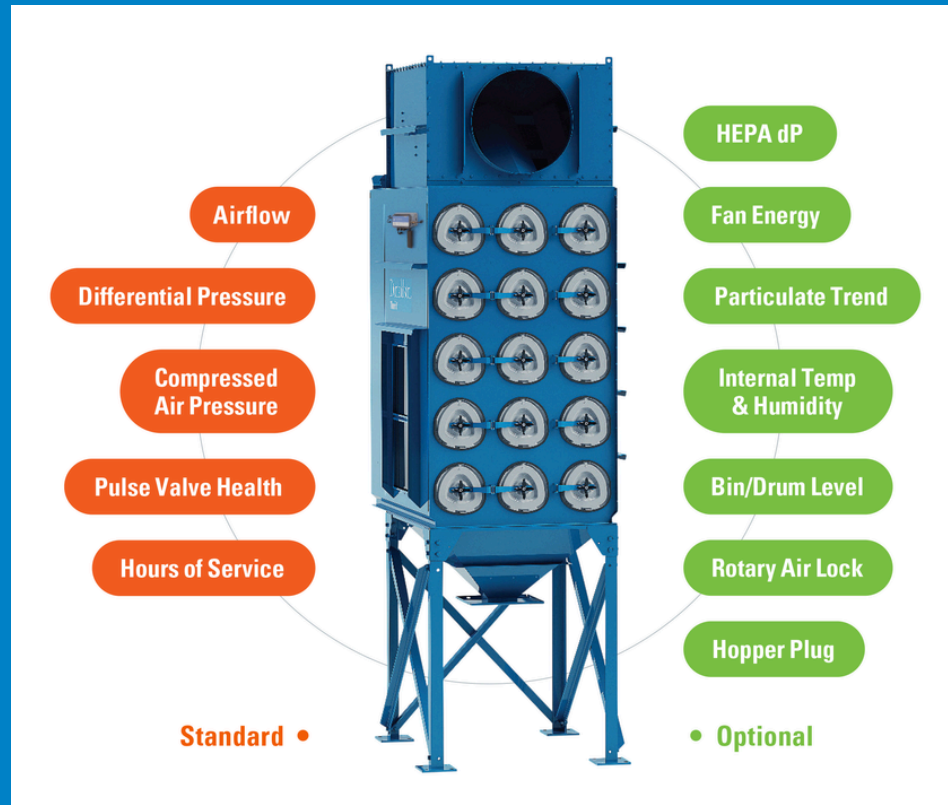

- Personalized Dashboard
- Remote monitoring performed by Donaldson Staff.

Additional requirements, regulations, or costs may apply depending on the installation site or ATEX classification.

Please contact your Donaldson representative for more information.

Smart Services Enabled by Technology

Donaldson's **iCue™ Connected Filtration Technology** helps you save time, resources, and money by remotely monitoring your dust collector's performance. It provides real-time alerts to both your team and Donaldson experts, enabling proactive maintenance and minimizing downtime.

With a Donaldson Service Plan, our specialists monitor your system and respond quickly guiding your team through troubleshooting or dispatching certified technicians when on-site support is needed.

The Service Plans include the standard monitoring sensors. Sensors listed under optional monitoring are not included but can be purchased separately.
