

Air Filtration Solutions **FRG Air Cleaner**

PREMIUM TECHNOLOGY
OE QUALITY

FRG Air Cleaner

OPTIMISED DESIGN FOR SUPERIOR PROTECTION

The FRG air cleaner family is designed for easy and efficient servicing and incorporates a built-in pre-cleaner, eliminating the need for an external pre-cleaner. The housing of the air cleaner is designed to protect mobile applications with very high dust conditions such as harvesting machines, construction equipment and mining machinery.

This proven technology is available with Donaldson standard cellulose media, but is also compatible with the Ultra-Web® media technology, ensuring outstanding engine protection. The two-stage RadialSeal™ technology also provides improved reliability, better durability and reduced weight compared to axial seal style air cleaner designs, ensuring a reliable and critical seal.

Media Pack Options

Standard Cellulose Media

Ultra-Web® high-performance media

Easy Maintenance

Tool-less element change

Design Flexibility

Orientation adjustment and optional scavenge on body

Updated Sensor Range

Integrated, robust, easy to install and future-proof

Drop-in Design

Easy to replace previous generation

Sealing Upgrade

RadialSeal™ technology
Sure-fit design

[DISCOVER MORE](#)

Compact, high-efficiency engine air cleaner, engineered for the harshest dusty conditions. The new-generation FRG air cleaner features RadialSeal™ technology, delivering superior performance and optimal engine protection.

FRG Technology Range

DESIGNED FOR HEAVY-DUST ENVIRONMENTS

NEW AC MODEL	SIZE	MAIN ELEMENT	SAFETY ELEMENT	SERVICE COVER	OLD AC MODEL
G110586	11"	P957265	P957266	P778366	G110206
G130512	13"	P957269	P957270	P777408	G130097
G130511	13"	P957267	P957268	P777408	G130107
G150518	15"	P957271	P957272	P777920	G150092

Note: Not all service parts are interchangeable between new and previous generations.

The FRG air cleaner series is a family of two-stage RadialSeal™ engine air cleaners that provide improved reliability, better durability and reduced weight compared to axial seal style air cleaner designs.

Why Choose Donaldson?

PERFORMANCE

First-fit choice of leading equipment manufacturers around the world.

INNOVATION

Continuous development of new technologies to meet changing filtration needs.

RELIABILITY

Comprehensive warranty covering our filters and your equipment.

QUALITY

The foundational principle driving the design, manufacture and delivery of every product.

SUPPORT

Knowledgeable technical support specialists available when you need them.

AVAILABILITY

Innovative, reliable distribution partners providing local support.
