**Engine Air Replacement Filters  
for Fleetguard® Direct Flow™ Air Cleaners**

Made to  
**Protect and Perform**

Donaldson.  
**BLUE**

Fleetguard® is a registered trademark of Fleetguard, Inc.

# The **most powerful** air filtration technology meets **sure-seal** know-how

**Donaldson Blue**® replacement filters incorporate **our most advanced air filtration technologies** into a complete package. They're specifically designed to fit and proven to perform in Fleetguard® Direct Flow™ air cleaners.

- **Proven** PowerCore® Filter Design
- **Proven** Ultra-Web® Nanofiber Media
- **Proven** RadialSeal™ Sealing System

Take charge of your engine protection. You have the power to choose the best filter for your Fleetguard® Direct Flow air cleaners.

Choose **Donaldson Blue**.

# BY THE NUMBERS

## Donaldson Blue<sup>®</sup> – Built-in Performance

Donaldson Blue filters for Fleetguard<sup>®</sup> Direct Flow<sup>™</sup> air cleaners were tested head-to-head against OEM filters. Both sets of filters were bombarded with dust, vibrated and shaken, and then carefully examined.

As expected when tested per ISO 5011, Donaldson Blue filters perform well on the important characteristics of dust capture — where they reached 99.97% overall efficiency — and capacity (filter life). It's when we compare sealing technology that Donaldson filters really stand out.

**50%** more sealing area & **2x** more gasket compression

### THAN FLEETGUARD<sup>®</sup> DIRECT FLOW<sup>™</sup> AIR FILTERS

Donaldson Blue filters with RadialSeal technology deliver two sealing advantages compared to the OEM filter. They contain **50% more sealing area** and **have up to two times more gasket compression** around the frame for a sure-fit seal.

Compare this to a thin O-ring design that offers 50% less sealing area and less compression, and it's easy to see why more sealing area and more compression area is better when it comes to protecting engines.

Air Cleaner and Primary Filter Cross Section

# Donaldson Blue<sup>®</sup> – where **innovation** and **proven performance** work together

## PowerCore<sup>®</sup>

- Rugged construction holds up in heavy-duty work environments
- Dust encapsulation makes servicing easier and cleaner
- More than 15 years of proven performance in diesel engines

## Ultra-Web<sup>®</sup>

- Protects engines and helps them last longer by providing better initial and overall efficiency compared to conventional cellulose media.
- High dust-holding capacity promotes longer filter life
- More than 20 years of proven performance in diesel engines

## RadialSeal<sup>™</sup>

- Industry-changing innovative Donaldson seal frame and gasket design
- Flexible and reliable sealing material creates a sure-fit
- More than 25 years of proven performance in diesel engines

# “ROUND PEG” IN A SQUARE HOLE

## Easy installation for difficult environments

The “round peg” not only fits in the square hole – it fits better. Simply remove the old filter and slide in the new Donaldson Blue filter. It’s that easy.

Donaldson Filter Part Number	1. Remove OEM filter	2. Replace with Donaldson Blue filter

## You Have a Choice

### Choose Donaldson Replacement Filters

You can always choose top-quality Donaldson filters designed specifically for your engines and equipment, and – as long as you change them according to the engine manufacturer’s recommendations – using Donaldson filters **will not** void your engine manufacturer’s warranty.

See Brochure F110064 for complete warranty details on all Donaldson products.
