

Donaldson Delivers

Hydraulic Replacement Filter for Parker Moduflow™ Plus[‡]

We've got you covered for engine transmission, power steering, and hydraulic oil filtration.

Now available. Transmission, power steering, and hydraulic oil filters are a key part of fleet maintenance. Donaldson DT high performance synthetic media filters provide dependable protection and reliable quality. They are manufactured, tested and proven to perform under the most severe conditions and are designed to deliver the quality and value that helps keep equipment running. With lower pressure drop and greater efficiency, they ensure cleaner fluid, longer filter life and better protection for your equipment.

It's important to choose filters you can trust to perform. Getting filters from one source is a big advantage as well, simplifying orders, delivery and installation.

Choose Donaldson to keep your operation running.
