

Donaldson Delivers  
**Filtration Solutions for  
Underground Mining**

Maximize your uptime with  
filters that move the earth.

## High performance filtration is the best preventive maintenance there is for hard-working equipment in the mining industry.

Downtime means lost revenue. To keep your equipment in service you need filters that deliver **superior performance** – and a **reliable supplier** that offers complete coverage for your entire fleet.

With Donaldson protection, your equipment will operate longer between filter replacements, saving on costly downtime and repairs. And we have a full range of offerings – both housings and replacement filters – to cover a wide range of underground mining equipment.

**Donaldson Delivers**

Performance Under <sup>any</sup> Pressure

**High Pressure heavy-duty filters** rated for pressures up to 6500 psi for critical applications.

**Cartridge Style DT filters**, using Donaldson Synteq™ media technology, help extend the life of heavy-duty equipment.
