

Donaldson Delivers

Complete Transmission Filtration Solutions

Our full line of hydraulic and transmission solutions, including our proven Duramax[®] filters with Synteq[™] media technology, help protect critical components from wear and maintain peak operating performance.

Solutions for all Transmissions

At Donaldson, we offer a broad range of low, mid and high pressure filters, available in spin-on, cartridge and in-tank styles to accommodate virtually any transmission. We provide reliable solutions to meet your specific needs – keeping your transmissions and equipment operating at peak performance.

Proven Performance, Transmission Protection.

Duramax® Mid-Pressure Solution

Donaldson Duramax filters, well-known as the highest rated spin-on style filters available, are reliable, long-lived and easy to install and service.

Duramax filters feature our proven, high performing Synteq filter media available in a range of performance grades and ratings.

Low-Pressure Spin-ons

Donaldson offers a complete line of low pressure spin-on replacement filters.

Our filters are designed to install easily into existing systems, or can be paired with one of our cast aluminum heads.

In-Tank Filtration

Donaldson has many tank-mounted return and suction filter options, including our combination filter (return and suction in one).

Our economical, space-saving in-tank filters are compatible with Donaldson service accessories – pressure gauges, visual and electrical indicators. Air breathers are also available.

Cartridge Filters

Donaldson offers a full line of cartridge-style replacement filters available with a variety of media options.

Our filters provide versatile solutions to work with your existing hydraulic or transmission systems.

OUR LINE OF FILTERS IS DESIGNED TO DELIVER:

- quality and value
- robust construction
- variety of media choices
- maximum uptime
- peak operating performance
- longer equipment life
